**This is a legal document. Please read and understand this document before signing. If you have any questions please ask us or consult an attorney.**

Carbon County Recreation has done everything possible to assure that participation in our programs is a rewarding experience. We wish to inform those registered in our football program that participation is not risk free. The same elements that contribute to the unique character and fun of football such as physical exertion and physical contact can cause loss or damage to equipment, injury, illness, or in extreme cases, permanent trauma or death. We do not want to heighten or reduce your enthusiasm for the experience, but we do want you to know in advance what to expect, and to be informed of the some of the possible risks. We ask that you read this, sign it, and return it to our office. This must be done before participation is allowed.

## ACKNOWLEDGMENT OF RISK

Football, like all recreation activities, is hazardous. The obvious accidents that occur in football are injuries associated with falling down or collision. In addition to the hazards of falling or collision, you may twist an ankle or knee while running. Grass is not always level. You may come in contact with a hole or sprinkler head.

Equipment may fail. Football equipment is tested before use. However, the extreme conditions of the environment in which football is used in conjunction with the damages caused by the wall can cause equipment to fail. Improper use of the equipment or not properly putting it on may result in injury. You may experience cuts or bruises from collisions or falls. You may break a bone from a collision or fall. It is possible that an injury could result in permanent impairment.

It is also possible that some participants could suffer mental anguish or trauma from the experience or their injuries.

This list is not an exclusive or exhaustive list of possible injuries, trauma or accidents that may occur while playing football.
